T

UNIQUE IN EVERY WAY

CROSS

Unique in every way.

The new T-Cross is as versatile as the people for whom it was built – individuals who don't allow any one thing to define themselves. They're much more than that. They want more – and they get more. Get ready to be captivated by a car that doesn't fit in any box and is unique in every aspect. Just like you.

Turning routine into something special.

There's nothing standard about it. Leave convention behind with the new T-Cross Style: a host of exterior features and design details ensures a lasting impression from the first time you lay eyes on it. You'll find it hard to look away.

Exterior details

01

01 You decide which wheels will best enhance the look of your new T-Cross. And with a wide range to choose from, you're spoilt for choice. The **18-inch Nevada alloy wheels are just one option¹⁾**. **SO**

02

02 Be a guiding light: The **LED headlights** in the new T-Cross make quite an impression thanks to their striking design – the dynamic hockey-stick shape of the integrated LED daytime running light is especially distinctive. Meanwhile, the o-shaped chrome element in the bumper that surrounds the cornering light is guaranteed to draw attention. **ST**

03

03 Embrace the modern design of your new T-Cross with open arms. The view from behind is just as arresting – the **rear** with its striking reflector strips and LED tail lights is guaranteed to turn heads wherever you go. **ST**

Standard equipment in the new T-Cross **SE** Standard in the T-Cross Life **LE** Standard in the T-Cross Style **ST** Optional extra **SO**
1) Feature offered by Volkswagen R GmbH. Please refer to www.volkswagen.com for additional information.

Show your colours.

Take advantage of the optional Energetic Orange design package and make your new T-Cross Style even more dazzling. It's the perfect option for those who make no compromise when it comes to individuality or character. Be bold! It can be grey out there on the road – but you don't have to be. **SO**

01 A real eye-catcher: The **Transition décor** with 3D design in Energetic Orange and Grey is an arresting design highlight. **SO**

02 The **seat upholstery** for the central and inner panels is decked out in Orange and Ceramique for a modern, cool aesthetic. The colours certainly enhance the look of the sports comfort seats. **SO**

03 The **18-inch Köln alloy wheels** in Hot Orange for the new T-Cross Style provide a splash of colour that simply refuses to be ignored. **SO**

R-Line

Most people like to show off their sporty side. The optional R-Line and R-Line Exterior equipment lines make it easier to do so than ever. This is clear from the black 18-inch Nevada alloy wheels, the design strips on the side with R-Line logo, the prominent skirts on the doors and the front and rear bumpers. The R-Line extras also give the new T-Cross a sportier appearance inside as well – with the multifunction sports steering wheel in leather with R-Line logo and decorative stitching, the stainless steel pedals and the sports comfort seats in Carbon Flag fabric and seat bolsters with ArtVelours micro fleece on the inner side together with an embroidered R-Line logo. **SO**

All equipment lines listed here are offered by Volkswagen R GmbH. Please refer to www.volkswagen.com for additional information.

For those who refuse to fit in.

Everybody demands different things: from life, from themselves, and from the car that takes them where they need to go. The equipment lines with their various design, function and comfort highlights allow you to tailor your T-Cross to your exact requirements.

01 Turning heads inside the vehicle: **Lizard decorative inlays** in a compelling 2D look. The décor incorporates everything from the dash panel to the front doors to create a virtually seamless transition and a fresh, modern look accentuated by the indirect ambient lighting. **ST**

02 The practical **jumbo box** between the front seats is more than an adjustable armrest. It provides space for storing tissues, soft drink cans, bottles and much more. There are two USB ports on the rear of the jumbo box, which is convenient for passengers who want to charge their devices. **LF ST**

03 You can manually alter the **variable luggage compartment floor** to meet your requirements with ease. Whether you want to use it as a flat storage space that makes it easier to pack in large and/or heavy objects, lower it to fit in more luggage or take it out entirely, you'll be able to make full use of the space and keep things neat and tidy inside the vehicle. **LF ST**

04 The new T-Cross with the **Style equipment line** guarantees exceptional comfort thanks, for example, to the front sports comfort seats that provide optimum support for your back. The heated seats ensure that you'll be comfortable even on cold days. And when you need to cool down, you can use the built-in Climatronic air conditioning unit. Meanwhile, the ambient lighting creates exactly the right mood inside the vehicle. This is augmented by the Lizard décor with polished coverings in the central console. **ST**

05 The **Life equipment line** is designed to make you feel right at home from the outset: Highlights including the air conditioning unit, folding front passenger seat, multifunction steering wheel and Plus multifunction display turn every journey into a top quality experience. **LF ST**

Spontaneity is always a good move.

Life is full of surprises. That's good, because the new T-Cross is open to any idea or impulse. With its folding front passenger seat, sliding rear seat bench and boot capacity of up to 455 litres, it is flexible enough to adapt to the situation as it develops – along with any surprises.

01

01 Multiple features for added comfort: The front seats with their higher seating position make it easier for you to enter and exit the vehicle and ensure good all-round visibility. Furthermore, the fully **folding front passenger seat** creates additional space if you need to transport long or compact objects on a regular basis. **LF ST**

02 Whether you're putting shopping bags or suitcases in the back, the rear of the vehicle has all the space you need. And it can be adapted as required: The **sliding rear seat bench** can be moved as required. You can slide it all the way forward, fold it down to create a flat loading space or choose to fold down only part of it. The choice is yours. **S LF ST**

02

The full experience in high resolution.

You decide what you want to see: the 26-cm (10.25-inch) Active Info Display shows all key vehicle information. As well as a host of useful features, the other multimedia and connectivity equipment in the new T-Cross gives you something that is truly indispensable: the feeling that you're in the right car. **SO**

01

02

01 Analogue is dead. The **Active Info Display** allows you to enjoy all the benefits of an instrument cluster that does much more than just indicate the car's speed and fuel level. From a full-size map to the various multimedia features to the digital speedometer, you decide exactly what you see on the display. **SO**

02 Two **USB ports** at the rear of the central console enable your passengers sitting in the back to charge their MP3 player, digital camera or mobile phone with ease – you'll never have to worry about low battery again. **LF** **ST**

03

04

03 Expand your cockpit – **Car-Net App-Connect** transfers your smartphone apps to your Infotainment system's touchscreen: Apple CarPlay™, Android Auto™ by Google and MirrorLink® – all three innovative technologies are available inside your vehicle, enabling you to take advantage of a range of useful and entertaining features. **SO**

04 Prefer your tunes to have that unique bass rumble? The **beats sound system** by the audio specialists at BeatsAudio is designed to provide optimum sound in your new T-Cross, wherever you're sitting. The subwoofer¹⁾ produces solid bass tones that are guaranteed to shake you to the core. All speakers are supported by

an eight-channel amplifier with a 300-watt output – powerful enough to get your head nodding and your passengers singing. **SO**

05 The **Comfort mobile phone interface** allows you to talk with whomever you please during your journey. One extremely practical feature is the integrated shelf with inductive charging function. An inductive connection on the exterior antenna guarantees minimal disruption to your reception when using the hands-free feature. You can activate it via the multifunction display, the multifunction steering wheel or the radio touchscreen. **SO**

05

Don't follow the crowd. Go your own way.

Prefer to tread your own path? The new T-Cross does, too. A host of driver assist systems – including the Lane Assist lane departure warning system – helps you to overcome critical situations or avoid them altogether.

01 The **Lane Assist lane departure warning system** can – from speeds of 60 km/h – detect whether the vehicle is unintentionally leaving its lane.¹⁾ The corrective steering assistance feature can prompt the driver to return their attention to the road.^{1), 2)} **S**

distance between your vehicle and the one in front of you.¹⁾ **SO**

03 The **Rear View reversing camera** helps you with reversing manoeuvres.¹⁾ The camera image on the radio display or navigation system shows the area behind the vehicle. **SO**

02 **ACC adaptive cruise control** helps you to maintain a previously specified top speed³⁾ as well as a suitable

04 When manoeuvring, the **Park Distance Control** system issues acoustic and visual warnings when it detects obstacles in front of and behind the vehicle.¹⁾ The integrated manoeuvre braking function can prevent collisions or minimise their impact by applying an emergency brake when reversing at speeds of up to 10 km/h.¹⁾ You can activate the manoeuvre braking function at the touch of a button, enabling it to intervene when the vehicle is driving forwards as well. **LF ST**

05 The **Blind Spot sensor** activates LEDs in the relevant exterior mirror to warn you if there is a vehicle in your blind spot.¹⁾ When reversing out of a parking space, the integrated Rear Traffic Alert system can monitor the area behind your vehicle and warn you of any traffic that crosses this space.¹⁾ **S**

Standard equipment in the new T-Cross **S** Standard in the T-Cross Life **LF** Standard in the T-Cross Style **ST** Optional extra **SO**
 1) Within the system's limits. 2) The driver must be prepared at all times to override the assist systems. They are not released from their responsibility to drive with the utmost care. 3) Up to 210 km/h.
