The new Touran

More versatility for your family life.

The new Touran is a car that is perfect for the entire family – and rather easy on the eye, too. And that's not just the design. The large side windows allow you to enjoy all the wonderful views around the car. What's more, the generously-proportioned panorama sliding/tilting roof ensures that this versatile head-turner shines brightly in a crowd. In addition to the impressive views, you will also enjoy a great deal of leg room. Despite its compact size, the Touran features an intelligent space concept to make sure that versatility comes equipped as standard. No matter what the day has in store for your family, the new Touran has space for everything – all in just the blink of an eye.

01 See for yourself how much more you can see. Thanks to their impressive lighting power, the **LED headlights** illuminate the road better than conventional halogen headlights. A further highlight: the LED headlights may look dazzling but they won't bedazzle other road users. The optional **"Dynamic Light Assist"** function blocks out certain areas of the headlights that could blind other vehicles or pedestrians.* **SO**

*Only in conjunction with LED Mid headlights.

Sit back, switch off, and log in.

With state-of-the-art equipment for your journey down the motorway and the information superhighway: thanks to its optional infotainment system and interface for mobile devices, the new Touran can put on a digital multimedia show to meet every passenger's needs. Your little ones (or big ones) can watch their favourite films, listen to the latest chart hits or chat on Facebook from the comfort of the back seat. Meanwhile, you can use the infotainment system to open up apps, use the voice amplification function to interact with passengers in the back or check information on your journey from the driver's seat.

01 Turning the infotainment system into a touchscreen: thanks to "Car-Net App-Connect"¹⁾, you can operate the apps on any mobile device connected to the car's USB port without even needing to touch the device itself! **SO**

02 The "Volkswagen Car-Net Cam Connect" gives you the power to have eyes in the back of your head: a GoPro^{®2)} camera shows you what's going on in the back seats of the new Touran: regardless of whether storm clouds are brewing or everything is all sweetness and light. **SO**

(Not shown) Even the glove compartment in the new Touran is digital: hidden behind a cover, the multimedia box above the storage compartment is

your gateway to a high-tech world. In addition to the slots for two SD cards and a SIM card, the **multimedia box** ensures that the CD player is always within easy reach. **SO**

(Not shown) Thanks to the **electronic voice amplification function**, passengers in the front no longer need to turn around or strain their voices to be able to talk to passengers in the back. **SO**

1) Only in conjunction with "Composition Media" radio or "Discover Media" navigation system; comes as standard with the "Discover Pro" navigation system.

2) The GoPro[®] camera is not included with the scope of delivery for the new Touran and has to be ordered separately. The solution described above is compatible with the following versions: GoPro[®] Hero camera (3, 3+ or 4). GoPro, Hero, the GoPro logo and the GoPro Be a Hero logo are trademarks or registered trademarks belonging to GoPro.

When there's only the clouds above you, your freedom knows no bounds.

Count the clouds and reach for the stars: the optional panorama sliding/tilting roof provides heavenly views from all seven seats (if selected). At night, two lighting strips highlight the impressive design of the 1.4 square metre glass panel. As the saying goes: good health relies on "bright light and fresh air". On longer journeys, the new Touran provides a fresh supply of good quality air, making it even more difficult to leave your car when you reach your destination.

01-02 The "Climatronic with 3-zone temperature regulation and anti-allergen filter" provides a fresh supply of air and keeps the temperature inside the vehicle at a healthy level: an air quality sensor fitted with an anti-allergen filter maintains a high quality of air in the cabin. It also prevents harmful particles from entering the vehicle and can even ward off fungal spores and allergens. The 3-zone climate control function and selection of profiles mean that all passengers can select the temperature that best suits them. There is even a gentle air conditioning profile designed especially for smaller children and people with sensitive skin. Sun and moisture sensors use the intensity and direction of the sun's rays to create the perfect climate and ensure a healthy level of moisture in the vehicle. This also means that you never need to worry about your windows misting over ever again. **50**

01

An exercise in relaxation: Parking with a trailer.

When you've got a family, safety is always your number one priority. That is why we have equipped the new Touran with a range of intelligent assist systems and safety features – for example, it comes with a total of nine airbags (including optional side airbags for the second row of seats), the optional innovative "Trailer Assist" function for help with manoeuvring trailers, and the optional "Side Assist" function for lane change assistance. And because the best way to stay safe is to have a relaxed driver, the new Touran forgets nothing when it comes to comfort.

01 By highlighting the beauty of the panorama sliding/tilting roof, the **ambient lighting** makes sure that the new Touran still turns heads, even when it is dark outside. Soft lighting in the footwell ensures that passengers receive a warm welcome when entering the vehicle. The brightness of the ambient lighting can be adjusted to suit your tastes. **H** **SO**

02 Reverse parking with a trailer or a caravan has always been a problem – until now. The innovative **"Trailer Assist" for support with trailer manoeuvring** makes life less complicated by taking over the steering for you. All you need to do is use the operating knob to set the required direction of travel. Trailer Assist then steers your trailer safely to its destination

(within the limits of the system) while you operate the accelerator and the brake, keeping an eye out for any obstacles. **SO**

03 The **"Side Assist" lane change assistant** helps you to see your blind spot. Two radar sensors in the rear scan the areas behind and to the side of your vehicle. The system sends light or flashing signals to the exterior mirrors (depending on the distance and risk level) to warn you of potential dangers when changing lanes. This is particularly useful when you are travelling at high speeds, like on the motorway for example. **SO**

03

A must-have for the modern family: the patchwork seat design.

01 Isn't it so much better to simply fold the seat down than have to take it all apart? Thanks to its adjustable space design, the new Touran can be a seven-seater, a five-seater or a transporter. The second and third rows of seats can be folded down in the blink of an eye. In the five-seater design, the luggage compartment can achieve an incredible 743 litres of storage space. To provide you with even more flexibility, all seats in the second and third rows are equipped with ISOFIX brackets. Another safety highlight: a display enables you to check whether all of your passengers have their seatbelts fastened.

02

03

04

02–03 The new Touran is equipped with a luggage net and dual-layer floor. Just like the rest of the vehicle, the **luggage compartment floor** also obeys the laws of versatility. You can switch between two possible positions with just one hand. This means you can choose between a flat luggage compartment floor or a recessed floor for additional storage space.

C H SO

04 If you are looking for even more flexibility for the luggage compartment, we have created the

“Cargo Package”. The elasticated net can be adjusted any way you like and is easy to install. It is held in place by a rail system in the side trim. And, of course, it can be used in a number of flexible ways – what else would you expect? **C H**

05 **“Easy Open”** always keeps the door open for you – particularly useful when you’ve got your hands full. All you have to do is move your foot underneath the rear bumper; the system’s sensors will then detect your key and open up the tailgate for you. **SO**

05

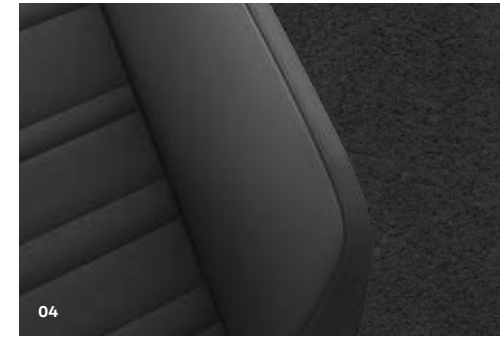

Upholstery

Aesthetics are important for a comfortable seating experience. That's why there are a lot of aspects to think about when it comes to selecting your seat upholstery.

There isn't just the superior materials and elegant workmanship to consider. You also have to look at the tailor-made designs. Take a look at our six suggestions for colour and material combinations – each one so enticing that you'll be ready to take a seat straight away!

Paint finishes

The seats aren't the only thing that you can adjust in the new Touran. You also have plenty of creative freedom when it comes to the paint finish. All you have to do is pick which one of the six paint finishes you like best. Your car won't just shine thanks to its superior paint finish, it will also shine with the brilliance of your own individual style.

- 01 Urano Grey "solid paint", 5K5K **S**
- 02 Pure White "solid paint", 0Q0Q **SO**
- 03 Atlantic Blue "metallic paint", H7H7 **SO**
- 04 Nutshell Brown "metallic paint", U3U3 **SO**
- 05 Pepper Grey "metallic paint", U5U5 **SO**
- 06 Deep Black "Pearl Effect paint", 2T2T **SO**

Wheels

Take a round trip through your mind. Because you have a decision to make. With a selection of eight wheels to choose from, you have to decide which design suits you, and your new Touran, best. To make your decision a little easier, you can rest assured that no matter which design you pick, your decision will always be the right one!
